Create a static web site by using HTML, CSS, and JavaScript. The content is as follows:

- Profile
- Brief description of your hometown
- Brief description of local food at your hometown
- Brief description of tourist places in your hometown

The routing of the webpage must follow:

- (Your domain)/quiz1/hometown   for hometown description
- (Your domain)/quiz1/food   for local food
- (Your domain)/quiz1/tourist   for tourist places

You can use jQuery and Bootstrap for lay-outing purposes. Then make a report, the content of the report is the design, pseudo-codes, screenshots, the explanations and anything you believe it's important of your webpage. Upload your webpage to any free web hosting. Then upload your source code to your GitHub repository.

"By the name of Allah (God) Almighty, herewith I pledge and truly declare that I have solved quiz 1 by myself, didn't do any cheating by any means, didn't do any plagiarism, and didn't accept anybody's help by any means.
