### Instruction

Please do these steps as in the following.

1. In this exam, you have to build your website which follows some requirements below.

Create a static web site by using HTML, CSS, and JavaScript. The content is as follows:

- Homepage
- Profile
- Brief description of your hometown
- Brief description of local food at your hometown
- Brief description of tourist places in your hometown

The routing of the webpage must follow:

- (Your domain)/quiz1 for homepage
- (Your domain)/quiz1/profile for profile
- (Your domain)/quiz1/hometown for hometown description
- (Your domain)/quiz1/food for local food
- (Your domain)/quiz1/tourist for tourist places

You can use jQuery and Bootstrap for lay-outing purposes. Then make a report, the content of the report is the design, pseudo-codes, screenshots, the explanations and anything you believe it's important of your webpage. Upload your webpage to any free web hosting. Then upload your source code to your GitHub repository.

2. To avoid plagiarism/cheating, every student needs to pledge and declare, then she/he must submit her/his **signed pledge and declaration** as in the following. Failed to do so will be resulted in getting 0 (zero) grade. Attach the **scanned/photo** of your *declaration* in your report.

“By the name of Allah (God) Almighty, herewith I pledge and truly declare that I have solved quiz 1 by myself, didn’t do any cheating by any means, didn’t do any plagiarism, and didn’t accept anybody’s help by any means. I am going to accept all of the consequences by any means if it has proven that I have been done any cheating and/or plagiarism.”
