1	0511184000008	Anggara Yuda Pratama	18	Design is great, but some greater difference between foreground and background would be nice. 3	0511184000011	Bryan Gautama Ngo	17	Good design, but a little bit too whitey. Perhaps adding some decor and/or colour helps	45	It's better to validate input first, rather than submitting to database and have error code thrown at you	24	"datetime-local" is not quite cross-platform (or browser, whatever you called it). You can split it into date & time input to make it works on browsers that don't support it (Firefox desktop, for example, doesn't support it. "datetime-local" degrade into text input, so no fancy selection of date and time)	5	Great website, with minor issue	1	0	The website works great, with some cross-browser incompatibilities	91.00	91.00	A
4	0511184000012	Btari Aliya Tsabitah	18	Looks professional, if a little bit bland. 6	0511184000017	Erlinda Argyanti Nugraha	18	Looks professional, if a little bit bland. I don't know if that is intended behaviour, but it's better to keep tags on.	5	Website works great, with minor functional issues	1	0	Website works great, add tags is a little confusing, and archiving a task loses its tags.	90.00	90.00	A
