1	05111640000178	Choirur Roziqin	15	The design of the landing page is great. But on the login and register page, there are no enough spaces between the form and the navbar. The usage of form with white background, it doesn't look good on gradient background. There is still login button when the user already logged in, it is not necessary. On the login and register form, just put some placeholder in the textfields and don't put another text on top of it.	35	checkbox on the login page isn't working properly, you should've removed it. After the user is successfully login, it's better to redirect the user to the homepage of user (list of notes) instead of create note for user. Should've let the user describe the note description when user create one, so that the user doesn't work twice. The language used in this website isn't consistent, just use only one next time. The usage of lock button is still unclear, the locked note still can be deleted. The get link button also isn't working. User profile detail should be put on another page.	20	The provided report isn't quite describing the website. Not all the website feature is clearly explained like what is the use of lock and unlock button	5	The website works fine.	1	0	Good website but there are still many things that can be improved. Keep learning.	75.00	75.00	B

3	05111840000005	Achmad Zidan Akbar	20	Nothing wrong with the design. Just like ordinary website management system	38	The register feature isn't working. Looks like the website isn't deployed properly, can't try all of those CRUD features, encountered 500 Server Error. But from the report that you have given, it all work properly. Should've not added the search bar if it can't be used. Try to use only one language in your website.	25	The analysis is clearly written and understandable . But unfortunately I can't try this website of yours	5	Encountered 500 Server Error when try to create new data.	1	0	Based from the report that you have given, it's a good website. Shame that the website isn't working properly when deployed. Don't make the auths feature manually, Laravel already provided a package for it	88.00	88.00	A
4	05111840000015	Dimas Adhitya	12	The design is monotone. Try to add more styling in your website	38	Based on your report, all the features are working. But since you don't deploy it in the internet, I can't try this website of yours	25	The analysis is clearly written and understandable . But unfortunately I can't try this website of yours	3	Can't try the website, because it isn't deployed in the internet	1	0	Good job. But it's very unfortunate that your website is not being deployed.	78.00	78.00	AB

5	0511184000016	Elvira Catrine Natalie	18	The login and register on the navbar mainpage can't be seen clearly because of the background, you can white background on the navbar like other pages.	47	It is better to add some validation in the form before submitting to ensure the user doesn't get the database error. Try to choose only one language in the website so that the users don't get confused. You should add some notifications when user deletes something so that the user knows what did he/she did.	25	The analysis is clearly written and understandable . Well done!	5	Great website	1	0	The requirements are already satisfied and the website works properly. Should've add some validation and notifications like flash message or something to make it perfect, Great website overall!	95.00	95.00	A
6	0511184000032	Rafid Ferdianto	15	The website design is plain. The website contents are not centered. It cause too much white spaces on the right hand side of the website	45	When the user want to register new account, it is better to add password confirmation field. On the add new item, when create item without fill all the fields better to let the user know what's wrong by giving some notifications. The cities option are limited in some state, what if the user isn't live in the city that only appear in the option?	25	The analysis is well written. Good!	5	The website works properly.	1	0	Website is a little bit plain, could be better. Regardless, the requirements are already satisfied and the website works properly.	90.00	90.00	A
7	0511184000041	Syamil Hibban Ahmad	12	The design is very basic and very plain. Rely too much on laravel template	31	No stylings at the implementation based on your report, only on login and register page.	18	The data modelling in your report can't represent the cdm and pdm	5	Very basic website. Try to do better next time.	1	0	Very plain and basic website. Try to do better next time	66.00	66.00	B
8	0511184000043	Vachri Attala Putra	11	The design is very basic and very plain. I don't see any styling but only on login and register page. Try to do better next time	31	No stylings at the implementation based on your report, only on login and register page. The link is not working, I can't try all of those features that you have mentioned in your report.	18	The only thing that can be seen is your report, but it has no code explanation in it.	5	Very basic website. Try to do better next time.	1	0	Very plain and basic website. The link is not working too. Try to do better next time	65.00	65.00	BC
9	0511184000049	Anisa Aurafitri	17	Design is good, if a little plain	40	There're some unfinished features	23	Perhaps spice the display up a bit, some decor and/or colour would be nice	4	Rest of the finished features work great	1	0	Website is a little bit plain, shame that some features aren't finished	84.00	84.00	AB
